Peace be Upon you

Crescent of Hope was founded in October 1992 when some of our members went to help with the Somalian refugee crisis in Kenya. We supplied food and helped in the building of huts for the refugees. A borehole rig was sent to Kenya because of the continuous drought in Northeastern Kenya. Its task was the drilling of boreholes and supplying water in that area.

After the experience gained there and realizing the need for major relief work needed in South Africa, especially amongst the indigenous people, we decided to concentrate our efforts here at home as the organization is run by South Africans for South Africans. This led to the formulation of our policy statement, "SERVING HUMANITY FOR THE PLEASURE OF THE ALMIGHTY".

The organization is registered with the Department of Welfare as an NPO. Our number is 000467 N.P.O. It is also registered with the South African Revenue Services and our PBO number is 930 005 968. Some of the projects and relief work done by the organization from its inception are as follows:
